Are you getting your share of public and private procurement?

Did you know that over £274bn is invested through public procurement each year in the UK?

Huge opportunities also exist in the private sector in areas including aerospace, aviation, construction, energy, health, marine and transport.

SMEs win 80% of UK public tenders. Is your company benefiting?

We're here to help.

If you want to improve your tendering and procurement skills, our FREE support programme will help you to:

- identify sources of information on bid pipelines, and live bid events
- make the right decisions about which bids to pursue
- improve your bid content; and ultimately, your bid outcomes

What's next?

We're offering eligible Belfast based businesses and social enterprises support to improve tendering and procurement performance.

You'll develop your skills through a series of tailored workshops, our experienced bid specialists will provide mentoring – and you'll benefit from hands on support on live tenders.
