

# Where to Study

# Where to study

## Honours and Masters degrees

To become a Chartered Architectural Technologist, we recommend that you should enrol on a CIAT Accredited Honours or Masters degree, or equivalent, in Architectural Technology.

**CIAT Accredits qualifications in Architectural Technology (and related subjects) at UK Honours and Masters degree level, and Approves programmes at UK Higher National Certificate (HNC) and Higher National Diploma (HND) level.**

The Accreditation and Approval processes ensure that the programmes have been assessed for their content, structure and resources against standards set by the Institute and are an assurance that you will develop your academic, analytical, communication and employability skills required for a career in the industry.

Holders of an Approved or Accredited qualification will be entitled to certain exemptions when progressing to become a professionally qualified Architectural Technician, TCIAT, or a Chartered Architectural Technologist, MCIAT, with the Institute.

**Approved or Accredited  
places to study:**

- England
- Scotland
- Wales
- Channel Islands
- Northern Ireland
- Republic of Ireland
- Denmark
- Hong Kong

# UK

## London
